

NEW CARBO PRO500

Electrical Power Consumption	4.3 Amp / 1040W
Electrical Supply	230 Volts AC 50Hz
Nominal External Dimensions	H 920 mm W 600 mm D 620 mm
Weight (Empty)	49 Kg.
Operating pressure of system	Up to 4 Bar
Recommended operating temperature	0 - 2°C
System temperature capability	-5°C to + 45°C
Compressed air requirements	5 Bar
CO ₂ requirements	4 Bar
Product maximum particulate size	100 micron
Product inlet and outlet connections	1" Tri-clamp liner

PRODUCTION SPECIFICATION

Suitable for a wide range of beverages: cider, wine, water and soft drinks

Unique 4.5 litre carbonation cylinder

Touch screen, easy to navigate, menu driven, operator interface

PLC automated control

Fully automated startup, carbonating, and cleaning

Compact stainless steel construction

Constructed in AISI 304 stainless steel
